Assistant machine operator

Locatie **Flevoland, Lelystad**
https://www.advertentiex.nl/x-1802245-z

We are offering a job as a machine operator assistant for pre-processing at a rubber company. If you want to work in an organization where standards and values are of paramount importance? Do you want the opportunity to further, develop your technical knowledge and skills. Read on!

Bedrijfsomschrijving

As an assistant operator in our team, you will have the opportunity to develop your technical knowledge and skills in the rubber field. Our company provides high-tech solutions for molded rubber products and rubber-metal compounds. Since 1955, we have been an international specialty and manufacturing company with nearly 200 experienced employees, state-of-the-art research facilities and innovative R&D. If you are ready to take on the challenge and join our dynamic company, we look forward to receiving your application!

Functieomschrijving

As an assistant to a machine operator, you will prepare machines and equipment for operation (assembling appropriate tools, setting technological data). As a machine operator assistant, you will operate and supervise both individual stations and production lines used to shape products together with the operator. As a machine operator assistant, you will perform product inspections to ensure that products meet our quality standards. You'll check that the daily and weekly production schedule goes according to plan. One minute you'll be working independently and the next you'll be working together with a colleague. The production coordinator and quality staff are around to support and assist as needed. Your contribution to improving processes, techniques and ARBO and environmental policies will be welcomed.
