I.V.M. overbodig te koop aangeboden, nauwelijks gebruikt.

Cisco Voip Videotelefoon DX650

Product Overview

The Cisco DX650 is built to deliver:

- ? Integrated, always-on and secure, high-definition (HD) voice and video communications
- ? Conferencing with Cisco WebEx® meeting applications
- ? Presence and instant messaging with the Cisco Jabber® messaging integration platform
- ? On-demand access to cloud services

It is intended to meet the demands of people who must collaborate effectively with experts even if separated by long distances.

Innovative collaboration capabilities are available right out of the box with the Cisco DX650. It provides native support for HD 1080p at 30 frames per second (fps); video calling interoperability to other H.264 and Advanced Video Coding (AVC) video endpoints, including Cisco Unified IP Phone 8900 and 9900 Series models; the Cisco Jabber platform on personal mobile devices; and Cisco TelePresence® System-compliant endpoints and room systems.

Integrated browsing provides instant access to cloud services. In addition, because it is Compatibility Test Suite (CTS)-compliant with the open Android platform, the Cisco DX650 offers access to the ecosystem of Cisco and commercial third-party applications developed for Android. Customers can also develop custom applications for Android and deploy them to both their DX650 and mobile users. The Cisco DX650 also takes advantage of the touch-directed ease of use of Android, and its ability to personalize

experiences with customizable home screens, communications widgets, ringtones, and more.

At last, a world device that's just DX650 provides lighter time of turn with personal mobile devices, smart phones through Bluetooth. The DX650 also supports the multi-recharge compact and all historical data for productivity, even in pressing a single button.

Now, it's up to you to move your call from your smartphone to the DX650 or any other audio experience and greater flexibility in how you choose to communicate.

The main attributes of the Cisco DX650 include:

- ? Integrated 7-inch capacitive touchscreen, with support for multitouch gestures
- ? HD video with H.264 and AVC video calling up to 1080p at 30 fps
- ? Enhanced wideband audio support (through G.722 or Internet Speech Audio Codec [iSAC] codecs) using the handset, headset, or speakerphone
- ? Choice of 802.11a/g/n desktop Wi-Fi connectivity or Gigabit Ethernet network connectivity with an
