Prijon Samurai
 Length: eight feet, five inches.
 Width: 25 inches.
 Volume: 60 gallons.
 Weight: 37 pounds.

The Samurai might better be named the Sumo for its voluminous midsection. Unlike others we tested, this boat has a cavernous cockpit that's easy for big folks to slip into. Thanks to its girth the Samurai (\$869) is rock-solid in turbulent holes as well as on the open river ù unlike some Prijon models, which have been criticized for their tendency to roll without notice. Still, you won't have any trouble maneuvering it. Beveled chines let you set it on edge and carve, and the thin bow and stern cut easily through the water. So, improbable as it may seem, you can actually throw a cartwheel in this.
