Agfeo AS 35 ISDN telefooncentrale

If you are looking for a telephone system for your business, then look no further. This system has all the features you'll ever need.

The flexible TK Suite Basic software (incl. hotel software) from AGFEO supports you in all your business activities. Make calls at the click of a mouse, receive reminders about important appointments or find out more about incoming calls. TK Suite Basic comes with its own database which can also be linked to existing customer databases and therefore will display caller information on an incoming call, even before you answer.

Depending on line selection, the AGFEO AS 35 can be configured of up to 18 Extensions and offers the following features:

Wake up Call:
Every extension may set their own wake up call
and therefore will turn into an alarm clock. With
the help of the AIS function the system may even
play your favourite music.

Door Phone:
A door phone may be connected to one of the
extension ports. You can speak to visitors at the
door via the telephones and can even open the
door at the push of a button.

Music on Hold:
The built in AIS Module can be uploaded with
your choice of music, information or advertising
messages.

System Phones:
Up to 6 AGFEO System Phones can be connected

to the AS 35. The System Telephones have been specially designed for use with AGFEO Telephone Systems and offer the very best in features and system functionality.
