Kicker RS65.2
16,5 cm componenten systeem

165 mm (6.5") WOOFER,
25 mm (1") titanium TWEETER
4 Ohms IMPEDANCE,
200 watts MAX
100 Watts RMS
40-21k hz FREQ.,
87 Sensitivity (dB @ 1W, 1m)
18 dB Hi/12db Lo CROSSOVER SLOPE
Mounting Diameter 138 mm,
Mounting Depth 62 mm

Features

- DuPont® Teteron® cones
- Voice coils with copper-clad, aluminium wire with polyimide former
- 25 mm tweeters with DuPont® Teteron® dome , coaxial mounting option
- Bi-amping Crossovers with 3-way tweeter level adjustment

RS Components let their primary sound flow through woofers that use a polyimide former and copper-clad aluminium wire mesh to reduce distortion by flexing with the cone's structural movement. Custom premium bass drivers with nickel-plated, shock-loaded terminals provide maximum end-to-end optimisation of energy for higher power ratings.

The RS662 series features high-efficiency speakers with advanced output at 100W RMS. It comes in 1" or 1.5" dia. angled, surface or coaxial mount, the latter allowing the installer to remove aluminium phase plugs from the woofer centers and screw in special adapters. RS-Series tweeters play back a wider dispersion pattern for greatly increased detail in high frequencies.

Sophisticated crossover make RS Component Systems more flexible and reliable than ever, and they look great in a custom install.

They can be configured for 1-amp wiring or 2-way conventional method including a tweeter protection circuit. Tweeter output level with reliable input bumpers determines the tweeter volume.
