

Rockford Fosgate Power Series Verstärker

Locatie **Flevoland, Almere**
<https://www.advertentiex.nl/x-644252-z>

When you install a Power series amplifier, you get the biggest, beefiest power Rockford Fosgate has to offer. The Power 551S amplifier incorporates state-of-the-art circuitry and audio controls to ensure that your music sounds absolutely pristine... and rocks hard!

Got some hungry subwoofers to feed? You're in the right place. The 551S pumps out 140 watts RMS per channel in stereo, or a mindbending 550 watts RMS in bridged mode. The wired remote control allows you to adjust the the legendary Punch Bass boost (0-18 dB at 45 Hz) right from the driver's seat!

Steep 24 dB/octave slope crossovers let you tweak the amp's output to best match your system components and musical taste, and convenient preamp outputs pass full-range signal to another amplifier in your system. Rockford Fosgate backs up the 551S with a 2-year warranty.

Details:

140 watts RMS x 2 at 4 ohms
275 watts RMS x 2 at 2 ohms
550 watts RMS x 1 bridged output at 4 ohms
stereo or bridged mono output
4-ohm stable in bridged mode
Tri-way capable (Tri-Way crossover required)

requires 4-gauge power and ground leads wiring and hardware not included with amplifier
 VMA-250 1250 Hz low-pass filter w-pass filter slope 24 dB/octave
 100% noise-killing differential inputs eliminate 100% of ground loop noise between the head unit
 100% advanced MOSFET circuitry provides temperature sensitive current foldback protection,
 provides "intelligent" shut-down protection without limiting system performance
 TRANSA circuit designs keep voltage low and signal high in the pre-amp section, for
 minimum distortion and maximum musicality
 MEHSA provides more efficient transfer of heat from MOSFET output devices to the heatsink for cooler
 operation
 preamp outputs for convenient daisy-chaining of amplifiers
 Punch Bass boosts bass up to +8 dB at 45 Hz (wired remote control included)
