CUTRIP 10.1 Inch Dual Screen Portable DVD Player with Car Headrest Mount Brackets, 5 Hours Built-in Rechargeable Battery -Black

Dual screen shares movies- Play the same movie on both screens: the DVD player outputs AV signals, the monitor inputs AV signals, perfectly share your movies with your family and friends, rescue your kids from the boring road trips!Improved high capacity built-in battery - Main monitor built with 2700MAh rechargeable lithium battery ensures 5 hours using time, most importantly it can share the power with slave monitor together about 2.5 hours. Without extra power support, two screens can play together for one whole movie.Three power supplies- Battery-powered, car charger, AC power adapter three power supplies, you can play anywhere. No more worries on draining off the battery when you out on your road trips.More stable headrest mounting devices -The most convenient headrest mount brackets, easy to install and remove. Avoid damage from vibration on the road. Insure you a pleasant in-car movie-watching experience.Break-point memory function- the DVD player can pick up from where you left last time. No worries about where you have to start since last time, saving your time.

Product details

Product Dimensions: 26 x 4 x 21 cm ; 3.1 KgBoxed-product Weight: 3.2 KgManufacturer reference:

PD04-10103B-58AASIN: B07688VBRX
