Best For: Intermediate- to advanced-level riders who want one kite that can push the limits in the wave

The Naish Park is one of the most exciting freestyle kites on the market and will revolutionize who enjoys the window and you feel faster on this kite because you are faster. The aerodynamic efficiency and light, responsive steering provide a very natural feeling to a rider looking for plenty of get up and go in their kite. The Park is also very well suited to waves being lively, driving forward in the turn, well balanced and responsive, controllable, has good, progressive edge power, lots of range and will turn very tightly when you need it to.
