TFX 140 MONO SHOCK

The 140 TFX mono shock is our entry level shock absorber it has a single tube which is gas-charged. It comes, depending on the model, with or without an internal floating piston.

Our 140 TFX mono shock absorber comes with the same technology as the more complex versions. The difference is that here we leave out the compression reservoir and thus the options for adjusting high- and low-speed compression.

This shock absorber has the strength, durability and performance for recreational use or long distance touring. It has an adjustable rebound damping which offers superior quality and stiffens both compression and rebound simultaneously. With 2 preload adjustment rings you can add more or less preload to your spring depending if you are driving alone or with a passenger or luggage.

They have 5 year warranty for recreational use.

All TFX shock absorbers are custom made and build according your personal specifications. They are also build with a modular system which allows us to change all parts when needed.

FEATURES

Tube 46 mm | Piston 46 mm Internal floating piston separates the air and the oil to prevent oil foaming (depending on model) Oversized 16mm high-strength shaft Low-friction seal with integrated Teflon back-up Aluminium 6082 T6 shock body Threaded spring preload Adjustable rebound damping 40 clicks Ride height adjuster (depending on model) Available in a range of spring rates to match the rider weight requirements Hydraulic preload adjuster (optional)

TFX 141 MONO SHOCK

The TFX 141 mono shock absorber has a remote fluid reservoir that is connected to the shocks body by a flexible hose.

It is mainly used for motorcycles with a limited space. The hose can be placed individually where there is enough space for example on the rear frame where air flow can provide additional cooling. This shock absorber is for the rider who wants high performance, durability, control and refined tuning options. It

doesn't matter if you use it for recreational, long distance or racing purpose, this shock has it all. They have 5 year warranty for recreational use. All TFX shock absorbers are custom made and build according your personal specifications. They are also build with a modular system which allows us to change all parts when needed.

FEATURES

Tube 46 mm | Piston 46 mm Remote reservoir, made from high-strength aluminium connected to the shock with a hose Oversized 16mm high-strength shaft Low-friction seal with integratet Teflon back-up Aluminium 6082 T6 shock body Threaded spring preload Adjustable rebound damping 40 clicks Adjustable high-speed and low-speed compression damping 32 click each Rider height adjuster (depending on model) Available in range of spring rates to match the rider weight requirements Eenvoudig en snel te bestellen via onze webshop, GeGShop.
