

Watchguard Firebox M440 Firewall (995 EUR)

Locatie

<https://www.advertentieX.nl/x-991713-z>**Utrecht, Utrecht**

Hierbij verkoop ik een Watchguard Firebox M440 Enterprise Level Firewall.

The Firebox® M440 incorporates the same strong defenses, high performance and flexible management tools that distinguish our other network security solutions, but this model delivers especially robust port density with twenty-five 1Gb Ethernet ports and two 10Gb SFP+ (fiber) ports. Eight of the 1Gb ports provide Power over Ethernet (PoE), allowing administrators to extend multi-layered defenses to the WLAN without having to run costly AC power to remote wireless access points. Because it's rich in independent ports, the Firebox M440 is an excellent platform for defining different network segments, which industry experts acknowledge is the best practice for securing and protecting.
