Te koop leuke set Ozone Edge.
 Beide kites zijn in goede staat zonder reparaties.
 De kites komen beide uit 2017, heb ze zelf niet nieuw gekocht.
 De contactbar is eind 2019 aangeschaft en hier heb ik enkele sessies mee gevaren, die is dus zo goed als nieuw. (Foto's kunnen gemaakt worden).

Super fijne kites om mee te varen, ze gaan weg vanwege aanschaf nieuw materiaal.

Ozone Says:

Over the season we have fine-tuned the Edge working on new bridle configurations enhancing the new Edge V8 with a smoother feel on the bar and improved handling characteristics. The Edge V8 is incredibly predictable; learning new big air moves or nailing those foil board and race board tacks has never been easier. The Edge V8 incorporates optimized layout of segments and balanced strut positioning resulting in a clean profile and canopy throughout angle of attack changes.

The Edge V8 is constructed with quality Teijin D2 and Teijin Dacron providing a crisper feel and a stronger kite. A low-drag pulley-less bridle system is achieved through optimized load distribution into the attachment points. The bridles are spliced using high quality Aramid line, which is 50% thinner than our standard bridle line giving the Edge a turbo charged feel.
