Hello, marktplaats users!

I got a smartphone as a big gift from my family, and as I am not a gadget oriented person, I would like to give it to someone who really needs it.

Phone is absolutely new, screen protectors are not removed, earphones not used, barely touched at all. It comes in an original bundle:

AKG (USB type C) earphones, USB type C cable, european Super Fast charger, Has a slot for two sim cards.

In addition to that, I also received the glass protector for the screen, so you will get that together with the phone, once you buy it.

Markplaats does not allow to put all the phone's characteristics, but it is a european Note10+ model, called SM-N975F/DS. (phonemore\_com has all the characteristics listed!)

I would like the delivery to be as riskless as possible, for both you and me, so I would only send the phone through the DHL service! (Notice, that might take a day additionally, as I need to arrange the shipping details and bring it to the DHL service!)
