Mooie 16m2 met polyester kuip en houten dek. Inclusief tuig en zeilen. Kwaliteit van de zeilen onbekend omdat deze inmiddels al 10 jaar opgeslagen (droog) liggen. Behoeft wel het nodige onderhoud. Eventueel inclusief bok om boot te stallen en buitenboordmotor. Moet weg in verband met verbouwing.

Loonbedrijf in de buurt kan de boot met een verreiker op een aanhanger tillen. Deze kosten bedragen ca. 75,=.

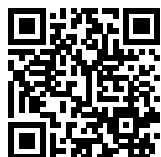

The boat has a polyester hull with a wooden deck, bottom and walls with small storage compartments at the sides. The wood and hull need to be sanded and painted but are good enough to restore without having (parts of) the wood or hull being replaced. However, the rudder needs to be replaced or restored because parts are worn out.

The quality of the sails I can not tell. When we moved to our new home, we stored the boat together with the sails and the cover in our barn (open but dry) where it is now for at about 7.
