

## cisco switch catalyst 2960-X series (800 EUR)

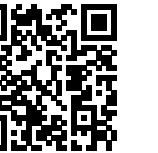

Locatie **Utrecht, Zeist**  
<https://www.advertentiex.nl/x-1011723-z>

2 stuks beschikbaar

Cisco Catalyst 2960-X-serie switches zijn stapelbare Gigabit Ethernet-switches met vaste configuratie die toegang tot enterprise-klasse bieden voor campus- en branchetoepassingen. Ze zijn ontworpen voor operationele eenvoud om de totale eigendomskosten te verlagen en maken schaalbare, veilige en energie-efficiënte bedrijfsactiviteiten mogelijk.

48 Gigabit Ethernet-poorten met doorstuurprestaties op lijnsnelheid  
 Gigabit Small Form-Factor Pluggable (SFP) uplinks  
 Lager energieverbruik en geavanceerde energiebeheerfuncties  
 USB- en Ethernet-beheerinterfaces voor vereenvoudigde bewerkingen  
 Zichtbaarheid van applicaties en capaciteitsplanning met geïntegreerde NetFlow

|                                                                                                                                                                                                                                  |                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                     |
