High performance cloud-managed 802.11ac wireless

The Cisco Meraki MR32 is a three–radio, cloud-managed 2x2 MIMO 802.11ac access point. Designed for general purpose next-generation deployments in offices, schools, hospitals and hotels, the MR32

the web, it can even be deployed at a remote location without on-site IT staff. The MR32 is monitored 24x7 via the Meraki cloud, which delivers real-time alerts if the network encounters problems. Remote diagnostics tools enable real-time troubleshooting over the web, meaning multi-site, distributed networks can be managed remotely. The MR32's firmware is always kept up to date from the cloud. New features, bug fixes, and enhancements are delivered seamlessly over the web, meaning no manual software updates to download or missing security patches to worry.
