Greetings :)

Me and my boyfriend (30+) are looking for a job in Limburg. We both have experience in factory and production work, so we would prefer something similar. We've already worked over 1-2 years as a machine operator (setting up and fixing the machine, not just for example filling materials) in EPA. We both have "two right hands" and perfect sight. So detailed processes or small products are not a problem! We also have a good eye for quality, so we can compliance high production standards. Our issues are the language (only fluent English), and we could only work in 1 shift: morning- or maybe night-shift . Part-time job is also a good solution. We would like to change our current workplace, because we would like to learn Dutch - that is why we cannot do afternoon shift. Ofcourse, we are opened to other opportunities as well! Thank you for
