- for Dutch see below -

* English

Sell BMW F800GS 2017 (0B17) in "Black Storm" color (ND2) with 27,810 KM. Euro 4 engine, ABS front and rear (possibility to deactivate).

I am the first and only owner of this motorcycle, I purchased it in Italy in July 2017 and imported it for private use when I moved to the Netherlands in June 2019.

The motorcycle has always been serviced at the official BMW dealers (service of 1,000 , 10,000 and 20,000 kms) and this can be seen in the signed maintenance manual or by contacting the official BMW dealers directly.

The motorcycle currently has 27,810 kilometers, most of them in highway use. The motorcycle is in excellent condition, it looks brand new as it has always been stored in a closed garage and taken care of very well.

The motorcycle has several original BMW optionals including heated grips, central stand, support for travel bags, handguards in aluminum / plastic and LED turn indicators plus over 1,000 euros worth of additional accessories (see detailed list below). I have also very recently replaced the battery, rear brake

pad and changed the oil + oil filter so this means the bike is ready to be enjoyed for a long time without any further investment. I have also a optional key for the motorcycle, all the original BMW manuals, all the original accessories that come with the seat and also the original service manual.

This is the most expensive because unfortunately I do not have enough time to spend at the moment as it is just sitting in my garage. I have all the documentation related to the purchase and registration of the motorcycle, maintenance services, purchase of accessories, etc. so I can share this information with interested buyers if requested.

The price is the one published in this advertisement, please contact me only if you are seriously interested in this bike and willing to pay the established price. The motorcycle can be seen in Amsterdam in the Old-South area.
