Peter Lynn Escape V5 Kite Only

De Peter Lynn Escape V5 kite is voor gemaakt voor ambitieuze en ervaren rijder die hun skills naar een volgend level willen tillen. De Escape V5 is 'hard popping', en is een echt freestyle machine dat de beste aspecten van verschillende LEI design is één heeft verwerkt. Het resultaat is een moderne C-vormig design dat jou een explosieve kracht geeft, soepel en gecontroleerd stuurt voor zowel hooked als unhooked freestyle tricks. Zijn diepe profiel geeft de kit veel grunt zonder dat de upwind performance minder wordt.

Kijk voor deze en meerdere aanbiedingen op Kitestuff.nl. Hier vindt u het volledige assortiment aan kiteboards, kites, powerkites, stuntvliegers en kindervliegers.

Wil je weten welk board het beste bij jou past? Bel dan gerust met Vincent Jansen (06-10429676).

|                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                       |
