

## Apple Macbook Pro 13034 2016 Touch Bar A1706 onderdelen

Locatie **Gelderland, Nijmegen**  
<https://www.advertentiex.nl/x-1062204-z>

Te koop;

Alle onderdelen, behalve moederbord (is defect), voor de Apple Macbook Pro 2016 met OLED Touch Bar.

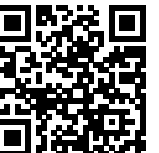

Moederbord is al verwijderd voor de verkoop.

Liefst in één koop tegen een heel goede prijs. Dit heeft de voorkeur.  
 Bieden op losse onderdelen mag, maar de koper die alles in één koop neemt heeft voorrang.

Dit model heeft de OLED Touch Bar.  
 (Betreft indicatie. Bieden staat vrij)  
 Indicatie prijzen losse onderdelen:  
 13,3 inch retina Zilver € 300,-  
 Topcase Zilver (inclusief keyboard en Touch Bar) € 250,-  
 Accu A 1819 € 75,-  
 Keyboard los € 50,-  
 Touch Bar los € 50,-  
 Onderkant Zilver € 25,-

Voor alle andere onderdelen vraag mail of via marktplaats chat.

De onderdelen zijn:

|                                                                                                                                                                                                                                                              |                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                 |                                                                                                                                                                                                                                                                 |
