F-One Bandit 2019, 12m plus bar. I have bought it in the beginning of 2020, so one season used, not so often, due to Covid. I work now far from the see and have to move even to another country from the New Year, so consider to sell it. Kite is in very good condition, no repairs, no holes, I have checked, it kept couple of hours without any sign of deflation.

Kite comes with an original backpack, and the bar, which is carbon made from KiteLab, with single flag line and the system which allow you to use it for bandits and other kites with low V. Lines are from SK-99 dyneema, with the highest load quality and is only used a bit. Bar is light, durable and is the professional racing bar.

The full pack, kite, bar and backpack, all.
