Design Profile Cabrinha Ace Wood 2019
 High performance model with the dampening of Paulownia wood.

Rider Profile Cabrinha Ace Wood 2019
 Freeride creatives looking to bend the rule of gravity with a forgiving, all conditions board. The Ace Wood is a highly versatile performance freeride model. Its outline is a hybrid of freestyle and freeride which opens up a world of options when it comes to its range of use. This all-wood version is erasing the lines between riding genres to create an exciting new approach to kiteboarding. The wood construction will tame rough and choppy waters allowing you greater edge control. Greater edge control leads to greater pop, greater pop leads to big air. What you do when you are up there is all up to you.
