

Radar Test Manager

Locatie **Overijssel, Hengelo**
<https://www.advertentiax.nl/x-1077134-z>

Thales is looking for someone who is willing to grow in the role of Senior Test Management for complex/high-end Radar systems.
 In fast changing markets, customers worldwide rely on Thales. Thales is a business where brilliant people from all over the world come together to share ideas and inspire each other. In aerospace, transportation, defence, security and space, our architects design innovative solutions that make our tomorrow's possible.

Job Description

Your initial task is to get acquainted with both the essential components of test management while participating as a technical team-member in the overall solution.

Your team consists of mainly System - and Test Engineers. Most of the team members are specialists in a certain domain (e.g. frontend RF behaviour, signal processing) and some of them are generalists.

We offer you a learning trajectory by active coaching on the job combined with specific training courses.

The main tasks in a nutshell:
