Rockford Fosgate T2!! Inclusief kist.
1200 Watts RMS Dual 2-Ohm T2 Power Series Subwoofer

Wegens aanschaf andere auto, waar er geen ruimte meer is voor deze Top of the bill Subwoofer, verkoop ik hem.

Power T2 subwoofers combine durable materials with built-like-a-tank engineering so you can rock steady over the long haul. These potent subs are designed for use with Power Series amps, handling huge amounts of power to give you performance that's as good as it gets. The T2D215 15" subwoofer uses an anodized aluminum cone with a high-excursion rubber surround for accurate, powerful bass. The huge 304-ounce magnet structure teams up with 4" voice coils for power handling up to 1,200 watts RMS or 2,400 watts peak. Whether you're a competitor or just a fan of great bass, you'll appreciate the extensive venting in the cast aluminum frame that keeps the woofer cool even during heavy use.

This subwoofer works in a sealed or ported enclosure. The dual 2-ohm voice coils allow you to wire your system to draw maximum power from your 1-ohm stable mono amp or to hook up multiple subs safely.

Product Features:

15" Dual 2 ohm T2 Power Series Subwoofer
Power Handling: Peak: 2400 watts RMS: 1200 watts
Impedance: Dual 2 ohm
Hard anodized aluminum dustcap and cone
High excursion Thermo-Rubber Santoprene surround
Mirror image symmetrical tear and fatigue resistant poly cotton spider
Parabolic

triangular cone geometry support system
Precision cast and vented aluminum alloy basket and rigid
flange
Over sized motor with 4" x 4" vented pole pieces
Removable and reversible for cooling
High temperature aluminum
cone
Fatigue resistant and reinforced "stitch" multiple layer design
Multi-point strength
Bonding
Insulating
Inductive Damping
Heat Sink
Custom insulated/isolated compression input terminal assembly
Flat edge
wound copper clad aluminum wire
Triple stacked ferrite magnet structure
Sensitivity: 86.0 dBCE 1000 Hz
