Offers are welcome as long as they are realistic.

Im selling my 2.2JTS Brera 185hp with 203k KM.

Only reason im selling it is this virus .. Its in great condition mechanically and has been well taken care off. It has two dents on the outside (pics).

It has no APK but has already been checked by a mechanic and only thing he found was a crack on one suspension spring gave me a 200 € price for the part, replacement and APK. It also has a brand new battery.

Car drives fine any checks are welcome.
