This is a LG G5 phone with a few damaged parts:

The wide angle camera is damaged, the bottom part of the phone where it gets charged might need replacement (otherwise the cable gets loose and you can't move it while charging) and you might want to consider buying a fresh battery.

But that's not a big problem as the LG G5 is a modular phone and you can get a new bottom part and a new battery for 10-20€ each online.

Original box will be delivered with it. USB-C cable not included. Screen is still in a very Good.
