

Alienware - 34 inch AW3420DW Curved UltraWide G-sync monitor

Locatie **Noord-Holland, Amsterdam**
<https://www.advertentieX.nl/x-1096210-z>

Selling my AW3420DW due to the purchase of the new 38" one from Dell. It is in perfect condition, a bit over 1 year old.

The Full Array: New IPS Nano Color technology lets you experience colors the way the content creators intended at 98% DCI-P3 color coverage , which is a professional color gamut larger than sRGB.

In the blink of an eye: a true 2ms gray to gray response time with overdrive and the 120Hz refresh rate deliver fast, responsive gameplay without the need for artificial tricks. The 120Hz refresh rate keeps up with the action so you don't miss a moment of the world you play in.

Ready to use: NVIDIA® G-SYNC™ technology displays full frames only when the monitor is ready. This means that your screen frames stay in sync with your NVIDIA® graphics card, so you can say goodbye to distortions like cracks and artifacts and get used to smooth, vibrant images.

Everything is visible: Immerse yourself in the game with an immersive 1900R curved display that takes you deeper into the game, and a 21: 9 aspect ratio that makes every viewing position epic. The curved screen maximizes your field of vision, requiring fewer eye movements so you can focus on the game comfortably for longer.

Lifelike:A 3440 X 1440 WQHD display offers crisp, crystal clear images with 4.9 million pixels - 1.79x

more detail than a 4K display. See every blade of grass, metal plare and sweat more vivid, intense and clear than ever.

True Colors: The new IPS Nano Color technology for gaming provides a wide response time of 2ms gray to gray response time with overdrive and the 120Hz refresh rate deliver fast, responsive gameplay without the need for artificial tricks. The 120Hz refresh rate keeps up with the action so you don't miss a moment of the world you play in.

No fading: Whether you're playing right in front of the screen or in a corner, you'll see all the action clearly with IPS on plane switching technology.

True Colors: With up to 98% DCI-P3 color coverage, you have a wide range of colors in your.
