High-Powered, Long-Range, Ruggedized 3x3 Dual-Band Wireless N900 Outdoor Access Point

The ENH900EXT is a high-powered, long-range, Mesh-capable 3x3 Dual-Band Wireless 802.11a/b/g/n Outdoor Access Point with speeds up to 450 Mbps on both its high-powered 2.4 GHz and 5 GHz radios. It can be configured as an Access Point, Mesh, or WDS (AP, Station, & Bridge). The ENH900EXT is designed to operate in a variety of outdoor environments making its high-powered, long-range characteristics a cost-effective alternative to ordinary Access Points that don't have the range and reach to connect to a growing number of wireless users who wish to connect to a business.
