The FIREBALL 1X (TrimLite) is a highly refined control system with a friction free connection providing unmatched freedom of movement. From its soft and ergonomic bar ends to its lightweight cleat trim and 1X security system, the FIREBALL 1X (TrimLite) is a high performance and feature rich method of kite control.

What makes the FIREBALL 1X superior to other systems is its patented ball and socket connection, its

ergonomics, and its instinctive form factor. The security system is intuitive, operates without effort and is integrated seamlessly into the design.

The 1X security line is well hidden alongside the depower main line in a protective PU covered tube. The award winning FIREBALL connection has gained international praise for its innovative approach to designing a purpose built kitesurfing connection. The FIREBALL 1X is perfect for any rider who rides predominantly connected.
