10 jaar geleden nieuw gekocht en nog nooit gebruikt. Kan dus geen ervaring delen, wel dat ik er toen €499 voor heb betaald. Was voornemens de winter door te kiten maar is er nooit van gekomen. Nog nagel nieuw in tas!

The industry's first snowboard-style drysuit, the Lucifer is a one-piece drysuit that looks like a separate jacket and pants. The Lucifer is intended for kitesurfing in extremely cold climates. A special hole in the front allows the wearer to keep the harness (a special belt to connect to the kite) concealed under the jacket. Water- and wind-proof fabric with latex seals at the wrists and ankles keeps the wearer warm while being fully breathable, allowing for perspiration. The inner tricot layer of the fabric provides comfort next to the skin, and the fit of the Lucifer was designed and tested by professional riders for ideal, unrestricted freedom of movement when performing kitesurfing.
