The Kicker ES40 woofer cones provide high-caliber sound, while the strong spider, magnets, and copper voice coils form a solid speaker structure that gives ES its competitive edge. A ribbed cone surround completely resists breakdown from sunlight and other harmful substances. Clear highs sparkle from the tweeters half-inch Mylar® domes.

With the JVC KD-R432 you can enjoy music in your car. This beautiful car radio with green lighting has a MOS-FET output of 4 x 50 Watt, is Bluetooth-ready and has a USB connection on the front with which you can connect your iPod or iPhone. This way you listen to MP3 or WMA files. Of course listening to radio with the JVC KD-R432 is also possible, via RDS you have even more information at your disposal. The built-in 3-band equalizer also ensures that you can adjust the frequencies of the sound of the JVC KD-R432 as desired. You can connect even more speakers with the 2.5 pre-out line and the subwoofer output; plenty of choices!
