Selling my Powerline. Used for about 1 year, very successfully in the wifi option (to get good signal upstairs). Also works for connecting an ethernet cable on the second plug.

It is perfectly functional, everything original, never had any problems with it. Protective stickers still on it!

For specs, please look up TL-WPA7510 Kit, or look at the pictures from the box. I can't answer any technical questions.

Comes with everything originally included in the box:

- 1x TL-WPA7510
- 1x TL-PA7010
- 2x Ethernet Cable
- Quick installation guide

Pick-up in Schiedam. I can send it by post - shipping cost on the!
