PROFESSIONAL INCH / IMPERIAL TOOL SET, 92-PIEC

---

This set contains all you need to work on American and British motorcycles and cars. All the tools are high-quality, durable chrome vanadium and designed to meet rigorous demands!

#### ROTHEWALD PROFESSIONAL

The fine-toothed Rothewald ratchets with their ergonomic shape and comfortable non-slip handles made of sturdy rubber simply feel good in your hand. The combination box/open-end wrenches and sockets made from high-quality chrome vanadium steel are a pleasure to look at with their finely satin-finished surfaces. Universal joints with spring washers within the connections keep movement taut and make controlled ratcheting easier. This sizeable and intelligently put-together set comes in a compact, impact-resistant plastic case. Imperial bits for Torx (T), Phillips and hex socket screws are kept together in separate, removable bit holders to prevent them getting lost. Of course, on top of this, all the hex sockets have a flank-drive which is gentle on the screw head, so even damaged screws can be reliably unscrewed.
