

## Te Koop Zeer Luxe van Claes RVS Custom trailer (2018) (4.750 EUR)

Locatie **Noord-Brabant, Cuijk**  
<https://www.advertentiax.nl/x-1126234-z>

Van Claes trailers zijn de Rolls Royce onder de boottrailers, dit komt door hun solide bouw en geweldige rijeigenschappen!!

De nieuw prijs van deze Custom trailer was 6500 euro.

Custom boottrailers standaard uitgerust met een volledig loopbordes chassis, waterdichte LED verlichting, waterdichte wiellagers, boottype specifieke kras- en streepvrije rollers of stempels, een centreerinrichting en een zelfremmende lier met veiligheidsband. U hoeft geen lichtbalk meer te verwijderen, dus super snel, gemakkelijk en veilig in en uit het water.

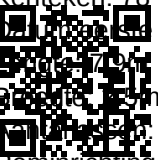

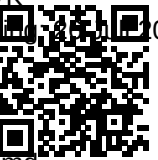

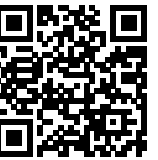

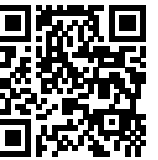

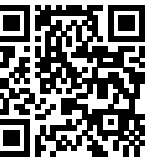

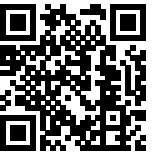

Van Claes Custom boottrailer is de eerste modulair gebouwde boottrailer ter wereld.

Hoge prestaties en gebruiksvriendelijkheid gecombineerd met een zeer luxueus design.

Door de lengte en breedte van de trailer is het mogelijk om vaartuigen tot 7 meter te transporteren.

Deze trailer is extra breed uitgevoerd waardoor u ook gemakkelijk een grote RIB kunt transporteren.

Gegevens trailer:

|                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                             |
