Locatie **Utrecht, Harmelen**
<https://www.advertentiax.nl/x-1138610-z>

Demo set van € 209,99 voor €100,00

The Connelly Cadet trainers will set your aspiring skier up for success. A removable stabilizer bar, with direct rope attachment, helps to keep the front and back end of the skis in place while taking some load off of your kiddo. The two handle Cadet rope allows an adult to safely control the pull from the boat and in case of a fall, just let go! Your little cadet will actually have FUN learning with these skis.

Connelly Cadet Waterski Construction Features

Reinforced composite constructionC.T.S. (Connelly Tracking System)High gloss UV coatRemovable stabilizer bar

#21 Connelly Cadet Waterski Riders Weight Indication

45" / 115 cm ? 35kg

Connelly Tracking System

A subtle spine feature on the tip of the ski helps keep the tip tracking straight while the boat starts to pull you up on deep water starts.

Standard Tunnel

A concave feature that runs the center length of the ski, setting it deeper in the water and giving the skier more edge hold. A standard tunnel leaves more flat surface between the edge of the tunnel and the bevel of the ski, giving more edge hold.
