Oerdegelijke en betrouwbare plotter. Graag bieden naar waarde.

Garmin GPS 126 with Internal Antenna

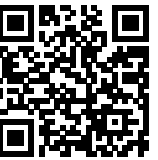

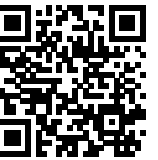

Manufacturer Description

With its large, high-contrast, 4.25" LCD display and powerful 12 parallel channel receiver, the GPS 126 is the ideal choice for the mariner who wants more than a handheld-without the cost, complexity, and large footprint found in typical fixed-mount units. The built-in antenna makes the GPS 126 perfect for the mariner who navigates from an open console.

The GPS 126 also features a customized moving map display with user-selectable waypoint symbols and comments, and dedicated zoom keys to help to make operation straight forward and intuitive. User-selectable highway or compass navigation pages provide graphic steering guidance to your destination, eliminating the guesswork when you're trying to find your favorite hotspot.
