Face Panel: 285\*120 mm  
 Some sellers have made an effort to make the unit with a compatible with different vehicle's size, color, year, dimension and shape of the center console. For vehicles that are not purchasing this unit, please NOTE:  
 1. Please ensure your car's central console is regular and not be purchased. (NOT fit in your car perfectly).  
 2. If the central console is right angle, please refer to XTRONS PDA7753B.  
 3. Some sellers will sell X5 (E53) radio as E39 radio, it is not fit as there is slightly stick out after installation while XTRONS PDA7139B is specially made for E39, it will fit perfectly after installation.  
 4. Please check whether your car's radio antenna port is in the car's trunk, if it is, you need to order a radio antenna extension cable to finish the installation (XTRONS AN001 is compatible).  
 5. If your car's original radio is 4.3" or 7" screen with 12 pin plug, or you have the navigation drive

---

located in the rear of your car, you need to order an extra 6m extension cable to aid for the installation (Both XTRONS EXL005 & EXL007 are compatible).

4. If there is DSP (Digital Sound Processing) button in your factory radio, or your car has digital sound system such as "Harman Kardon" or "Bose", you will need to modify speaker wires. This unit will work with car speakers directly, and your DSP or digital sound system will NOT work.

5. Please check whether there is a frame in the center console of your car. If there is, please remove the frame first to finish the installation.

6. Please note that if your radio harness is 17 pins and the 4 pins indicated are empty, this unit can NOT fit with your car.

7. If your car is BMW E38, please check whether there is HVAC Box behind the factory radio. If there is, this unit can NOT fit with your car.

•Stylish and Distinct User Interface

Stylish and distinct user interface enables smooth and quick operation of the stereo whilst driving. What's more, by a simple drag of the icons on the unit, you can place the icons on the home screen freely.

•Built-in DAB+ Module

Digital Audio Broadcasting is renowned for its better sound quality and wider choice in channels. With the built-in DAB+ module, there is no need to purchase further equipment, and you can experience in-car DAB straight out of box.

XTRONS: No messy wires and extra accessories required.

Others: Extra cost for the DAB+ module, antenna and installation.

1. Upgrade Your Sound Experience

DAB+ gives you more choice to enjoy crystal clear sound, even whilst on the move.

2. Strong Signal and Multiple Channel Choices

With the supplied DAB antenna and with correct installation, you will be sure to receive a solid digital reception.

DAB+ delivers a wider signal range, ramping up the number of stations you can tune in to.

3. Professional DAB+ Antenna

With professional aerial antenna and correct installation method, you can receive the strongest radio signal ever.

Remove "A" Pillar trim from the passenger side

Scratch away some paint from the A Pillar to attach the copper earth strap

Attach the rest of the antenna to the windscreen once the earth strap is secure

Run the cable to the rear of DAB stereo and connect to rest. Refit the A Pillar once completion.

•FM / AM (Supports RDS)

XTRONS PDAB7139B does not only support DAB+, it also comes with a built-in radio tuner, storing up to 18 FM stations and 12 AM stations.

•Screen Mirroring Function for Smartphone Entertainment Sharing

(Supports Android Smartphone ONLY)

With the screen mirroring function, any content from your smartphone can be mirrored onto this head unit.

Two-way control of all the Applications from your smartphone, no delay video playback, enjoy exciting

---

games and more on the large display.

Note: Not all smartphones are compatible with this unit's screen mirroring function.

- Steering Wheel Control Ready (CANbus Box Provided)

Take control of the music or use the hands-free calling function for safety and concentrating on the road ahead. This head unit's steering wheel control (SWC) works with vehicles with a digital SWC.

- Quicker & Smoother

Now with our powerful 800MHZ Cortex A7 Processor, you can enjoy the fastest running speed than ever.

Processor: Cortex A7, CPU: 800M
