

Defecte NAS gezocht

Locatie **Utrecht, Utrecht**  
<https://www.advertentiax.nl/x-1154029-z>

Ik zoek een defecte NAS van QNAP, Asustor, Netgear (alleen ReadyNAS modellen), Thecus, Zyxel voor experimentatie en hobby.  
Laat me weten wat u heeft, defect, prijs, compleet/incompleet,.

|                                                                                                                                                                                                                            |                                                                                                                                                                                                                             |                                                                                                                                                                                                                             |                                                                                                                                                                                                                             |                                                                                                                                                                                                                              |                                                                                                                                                                                                                               |                                                                                                                                                                                                                               |                                                                                                                                                                                                                               |                                                                                                                                                                                                                               |                                                                                                                                                                                                                               |
