

Lead Test Automation Engineer - Valkenswaard - Valkenswaard

Locatie **Limburg, Heel**
<https://www.advertentiax.nl/x-1157841-z>

Automation Engineer - Within the VDL Bus & Coach group the VDL ETS System Competence Centre is responsible for the system and software development. For this group we are looking for a Lead Test Automation Engineer to work on SW test framework and tests.

The Job:

With the electrification of drive trains and IoT developments the number of controllers and system complexity of vehicles like busses and trucks grows exponentially. With that the amount of software increases...
