I want to introduce you Dalila... I am selling this amazing Ducati Diavel to change category. She has 37000km (visible in the picture). The bike is perfect, never touch the ground. The tyres have 3000km. All the maintenance has been done periodically and documented. During the last maintenance the fork seals have been changed plus liquids and brakes. First model of the Diavel so all the parts are really well done to break the market with this new category (muscle bike). Extra parts not included are (+250€):
