This mac was purchased 8 months ago, and used for office admin work solely. From day one, the mac was covered in screen protection and hard shell case around it, hence there isn't one scratch on it, as a matter of fact it looks as if it came out of an apple shop brand new. Works 100%, inspections are more than welcome!

Selling due to upgrading to a PRO version.

Comes with a hard shell case, power charger + USB cable, original packaging. Can meet in person and also can ship to you anywhere you'd like.

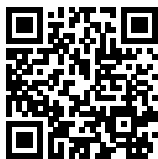

If you're "buying this for your daughter who lives in UK or USA or whatever the current spam methods are, please let's not waste each other's time" thank you very much for your
