Goed bod gevraagd ! Ik heb er eventueel 2 te koop

Vintage rare hard to find late 1950's to early 1960's British racing green with white reflective stripes cross motorcycle cycle bike open face half helmet marked on the leather inside band "57-58, Roemer 8415-12-175-2248, Bund PA". The adjustable leather snap chin strap has a second outer fabric snap strap. The helmet has factory metal face guard attachment points on either side. I am not sure of the size of this helmet. It may be coded in the number on the leather band. The helmet shows some wear as pictured. The inside soft tan leather padding, chin strap and ear flaps are complete and in very good condition. I believe the helmet was made in Germany for a specific racing car and/or motorcycle.
