

## TOP Mining Rig 6 x 3070 ROG Strix 365 MHs (11.500 EUR)

Locatie **Overijssel, Hengelo**  
<https://www.advertentienx.nl/x-1179513-z>

Built on 12.05.2021. All components were new and sealed (from cables to GPUs). All invoices and boxes are available.

TO BE PICKED UP IN HENGELLO (OV).

Heart, effort, and passion contributed to the creation of this miner, using only high quality components. Besides the GPUs, the rest of the components are also top in their class.

Best RTX 3070 cards on the market (both for gamers and miners; check online). Therefore, the best resell value as well.

The cards were not limited in hashrate, like some of the new RTX 3000 series Nvidia LHR (Lite Hash Rate) cards.

The miner is very stable, silent, and cold. Super efficient as well (~715 W on the app, ~820 W on the wall). Low temperatures between 42-47 degrees with 55-60% fan speed (it can stay below 42 degrees with 75% fan speed).

Why do I sell it? I am selling it because I enjoy building different types of miners, as a hobby (on request, I can show my portfolio with miners built so far). Probably the next rig I will build be an AMD-based one (stay tuned!) due to the above-mentioned market issues, so this is my last Nvidia-based top-tier miner.

Key components:  
 GPU: 6x NVIDIA RTX 3070 ROG Strix 365 MHs (3x stock and x2 overclocked)  
 Motherboard: ASUS Z490-A  
 PSU: x2 Corsair RM850x  
 CPU: Intel Pentium Gold G6605  
 CPU Cooler: Cooler Master G700M  
 RAM: Kingston HyperX Fury 8GB DDR4 RGB  
 Storage: 2x 256 GB Samsung E90 USB 3.1  
 Fans: x4 Noctua NF-12 iPPC 3000 RPM PWM + Noctua controller  
 Cables: Ultra Stable Vbr009 x6, powered via 6 PIN purple cables (not SATA).

---

All other cables are sleeved (purple and black), like 24Pin to dual 24 for PSUs and the PCI-E cables that connect the risers to the PSU PCIe cables.

Currently mining Ethereum on Minerstat (MsOS) platform using the TREX client.  
Plug and play: Change the wallet and it is ready to mine for you.

For serious buyers, it can be seen working. Also, preferable to be picked up (+ the opportunity to check and learn more about it).

Payment via bank or crypto is preferred.

Feel free to contact if interested in buying.
