

TABLET PC GETAC F110 CORE i5 4GB RAM HDMI 128GB SSD WIFI (490 EUR)

Locatie **Utrecht, Amersfoort**
<https://www.advertentiex.nl/x-1181504-z>

For Sale Is A Fully Rugged Military Grade Tablet Getac F110
With Brand New Genuine Battery Charging Dock And 1 x New Battery

Sorry, the price is not negotiable - more than a fair price for a tablet PC of this class and given specifications Anyway

Hit it while it's still available, because for the low price you won't find the same device, with the same features and condition, anywhere - no matter where you look

The device is used and has normal usage traces here and there
But it is in very good condition and works perfectly
Nothing is broken or damaged, and all port covers are complete

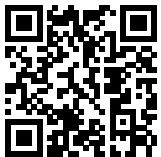

A thoroughly convincing, modern, robust Windows tablet that is elegant, light, fast and easy to use

This is not a shiny miny Show Pony like most laptops are these days, but an ultra strong and very fast workhorse made for use under the most extreme conditions.

With this device, you don't have to worry about running to the next Computer Store if you accidentally drop it hard
