

## Kite ventiel repair

Locatie **Groningen, Finsterwolde**  
<https://www.advertentiax.nl/x-1196727-z>

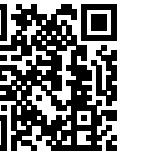

Lekkage aan een ventiel van je tube kite? Wij verlijmen deze zodat je snel weer het water op kunt. Wij verlijmen met professionele lijm wat 12u dient te drogen voor het beste resultaat.

Kosten voor alleen verlijmen is 29,95 euro p/s (ook one pomp).  
 (vervangen van het ventiel mits voorradig: kosten ventiel + 24,95 plaatsen)

Heb je een oudere kite van voor 2015, dan is het verstandig alle ventielen na te laten kijken en te verlijmen. Deze laten vaak los door uitdroging over de jaren. Vraag een offerte op basis van aantal ventielen.

Opsturen -> Reparatie -> Retouren

Retoureren kost 6,75.

|                                                                                                                                                                                                                           |                                                                                                                                                                                                                            |                                                                                                                                                                                                                            |                                                                                                                                                                                                                            |                                                                                                                                                                                                                             |                                                                                                                                                                                                                              |                                                                                                                                                                                                                              |                                                                                                                                                                                                                              |                                                                                                                                                                                                                              |                                                                                                                                                                                                                              |
