

Tp-link tl-wn722n (13,95 EUR)

Locatie

Zuid-Holland, Wateringen

<https://www.advertentiex.nl/x-1196945-z>

LET OP: Deze adapter beschikt over de Versie 3 / Ver. 3.0 / V3 variant van de chipset. Aan een exemplaar met Versie 1 Atheros chip kunnen wij u helaas NIET helpen.

WLAN USB-adapter, 150Mbps met externe High Gain antenne

The TP-LINK TL-WN722N Wireless High Gain USB Adapter allows you to connect a desktop or notebook computer to a wireless network and access high-speed Internet connection. Using Align™ 1-stream technology based on 802.11n technology, TL-WN722N provides a better wireless signal than existing wireless 802.11g technology. Most of all, equipped 4dBi detachable antenna can remarkably boost your signal range and speed. Now you can get a better Internet experience, such as downloading, gaming, video streaming and so on.

HIGH GAIN DESIGN

With powerful 4dBi detachable antenna, the TL-WN722N remains excellent performance in the long range and bad environment, it can receive signal from wireless base even separated by 2 floors.

QUICK SECURE SETUP

QSS or Quick Security Setup is a handy feature that allows users to almost instantly setup their security simply by pressing the QSS button on the wireless adapter, it automatically establishes a WPA2 secure connection, instantly protecting your network.

Why Apple TV technology is better?

At the core, technology is powered by Alcatel's communications DNA, which is a multi-faceted development of a multi-ecosystem solution for wireless and fixed communications. Based on this DNA, the company's 1-stream technology, the single-stream feature, enables a new class of Wi-Fi® that deliver performance enhancements over the existing 802.11g technology, at comparable price points.

Align solutions are also forward compatible to higher-performance, multi-stream, MIMO-based 802.11n providing the optimal upgrade path for value-class WLAN products. Consumers who move from 802.11g to products based on Align 1-stream technology will experience enhanced performance in their home networks.

Specifications: 150Mbps wireless transmission rate Provides two methods of operation: Infrastructure and

Ad-HocQuick Secure Setup, complies with WPS for worry free wireless security
Supports 64/128-bit WEP, complies with 128 bit WPA standard(TKIP/AES), supports MIC, IV Expansion,
Shared Key Authentication, IEEE 802.1X4dBi omni-directional antenna detachableSupports Windows
2000/XP/Vista OSSeamlessly compatible with 802.11b/g/n devices
