Introduced in 2003, the MC9000-G was conceived as a modern and relatively compact and lightweight flashlight-style handheld computer for barcode scanning-intensive applications (such as supply chain management) throughout the enterprise, and ended up becoming Symbol's most successful line of rugged handhelds ever. The MC9000's original design included a large 3.8-inch mono or color display, good processing power, a choice of a 43 or 53-key keypad, internal WiFi, and several long and short range 1D laser scanners or 2D imager options. The device is very rugged both in terms of sealing and drop
