A very neat Fiat 500C with a very sporty engine, has always been good taken care, with a lot of extra options like Interscope sound system with built in subwoofer, bluetooth connectivity, climatron, bi xenon, distribution kit changed at 82000 km. First registration of the car: Dec 2010, so it can be considered a 2011 car. Last service just before APK, which was done on 25th of May 2021. No technical issues! New APK! The car has to go as we bought already a bigger family car.

P.S. : NO cash accepted!! Please, avoid being ridiculous with nonsense offers! No trades!
