

# Parrot CK3100N carkit (25 EUR)

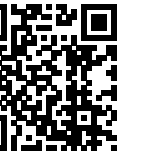

Locatie **Overijssel, Enschede**  
<https://www.advertentiax.nl/x-1204131-z>

Parrot bluetooth carkit, met bekabeling voor Mitsubishi Colt VI. Kan ook in een andere auto worden gebruikt met ISO connectors. Werkt prima.

Over wegens overstap naar een radio met ingebouwde.

|                                                                                                                                                                                                                      |                                                                                                                                                                                                                       |                                                                                                                                                                                                                       |                                                                                                                                                                                                                       |                                                                                                                                                                                                                        |                                                                                                                                                                                                                         |                                                                                                                                                                                                                         |                                                                                                                                                                                                                         |                                                                                                                                                                                                                         |                                                                                                                                                                                                                         |
