Hi fellow biker!

I'm Natanael and in my humble opinion, I own one of the best looking motorbikes in The Netherlands! This is a roaring, double exhaust neck-turner in great condition ready for a new owner due to a permanent move away from The Netherlands.

Some additional info about my bike - now available for viewing at Noordwijk aan Zee - and an overview of gear and recent maintenance:

New Bridgestone rear tire (2020)New Bridgestone front tire Exedra-Max (2021)New Yuasa YB16B-A1 Battery (2020)New spark plugs (2021)New air filters (2021)New engine oil+oil filter (2021)Greased front brakes and regulators (2021)All-round service on the bike on a shop for €935 in April 2021GPS not mounted anymore (didn't look nice or work well)License plate number: MR-09-ZX (yes, as cool as the bike itself!)

As I'm not going to own a new motorbike for a while, (nomad lifestyle with remote work), I will also get rid of my equally crisp-looking motorbike gear that goes great with the bike. Everything was purchased in 2020 and has only been used carefully for one full season:

Feel free to reach out via phone or Marktplaats-messages to schedule a viewing as soon as possible (currently in Noordwijk aan Zee)

This bike both looks, rides and sounds extremely nice - don't miss this rare opportunity!

Best regards,

Natanael
