Hereby I'm offering my FN2 Type-R for sale.

It has only 84.500 KM's on the clock and smells still like new. I'm the third owner of this car. Car comes originally from Belgium. Full service history since first maintenance with all documents and receipts. Last maintenance was 2 month's ago;
 Oils, filters, brake discs and pads has changed.

As an extra;
 It has Japan Racing JR28 wheels and also original honda wheels which will come with car. Also It has mishimoto shift knob but original one also present.

The main thing about this car, It's completely stock and full original. %100 crash free even without paint. It still has all fabric paint and parts on it.

The car is open for good offers. However, check the market and condition in calculation before giving offer.

Detailed photos, videos and stuff could be seen by Instagram;
